DESCRIPTION

MARINE-MOLY™ is a specially formulated Molybdenum Disulfide (MoS₂) and graphite marine lubricating paste that provides a low-friction shield by “plating” to metal surfaces to reduce bearing temperature, protect working parts, prevent galling and heat freeze.

MARINE-MOLY is extremely resistant to water, withstands extreme weather elements and helps prevent corrosion on metal exposed to water, steam, salt spray, etc. **MARINE-MOLY** has a 300,000 psi film strength.

- Lead Free
